ABOUT ME

Frontend Developer with hands-on experience building responsive web applications using **React**. Strong understanding of modern JavaScript (ES6+), component-based architecture, and UI development. Passionate about creating user-friendly interfaces, writing clean and maintainable code, and learning through real-world projects. Comfortable working in team environments, asking questions, and iterating based on feedback. Motivated to grow as a software engineer and contribute to production-level features in a fast-paced product company like Wolt.
